

CREATION ASTRONOMY

The “What You Aren’t Being Told About Astronomy” video series (see link below)

<https://www.creationastronomy.com/videos/>

“Spike Psarris, a former engineer in the U.S. military space program, has created DVDS that not only break astronomy down for you, but are vastly entertaining (our whole family has already watched them several times!). [They] feature stunning video clips, photos, and graphics, and are organized in such a way that kids can actually retain the information they see...

Spike combines a wonderful collection of astronomical photos and artist simulations with beautiful music and a fast moving script to tell the top level story for the lay viewer. Using quotes from many books, journal articles and experts he also brings out how tenuous and uncertain these contemporary naturalistic theories are even in the minds of secular scientists (*Tom Greene, Ph.D. (Astronomy)*)
